1. EUPHA update

EUPHA publishes statement on the proposal for a regulation on Health Technology Assessment of the European Commission

EUPHA welcomes the publication of the European Commission's "Proposal for a Regulation of the European Parliament and of the Council on health technology assessment and amending Directive 2011/24/EU": EUPHA believes that this proposal forms a sound basis for Health Technology Assessment (HTA) processes to be implemented in all Member States of the European Union. It gives Member States the responsibility to lead the process and safeguards a long-term and sustainable cooperation by setting up a permanent structure.

Statement by the European Public Health Association (EUPHA) on the European Union's (EU) Multiannual Financial Framework (MFF) post2020

On 22 February 2018, EUPHA submitted its response to the Public consultation on EU funds in the area of investment, research and innovation, SMEs and single market. This consultation on EU funds specifically concerns the area of public health, where EUPHA argues strongly that European funding remains necessary and has added value.

EUPHA Section council president joins the WHO European Advisory Committee on Health Research

Dr Iveta Nagyova, president of the EUPHA Section Council, has joined the WHO European Advisory Committee on Health Research (EACHR). The main role of the EACHR is strengthening the use of research evidence for public health decision-making. She joins other EUPHA representatives: Prof Walter Ricciardi (EUPHA past president) and Prof Roza Adany (president of the EUPHA section on Public health genomics).

EUPHA Executive director explores the importance of improving public health in Europe

In the February edition of Open Access Government (pages 16-17), EUPHA Executive director, Dineke Zeegers Paget, reflect on "Could the new public health professional please stand up?" In this article, Zeegers emphasizes the need for public health professionals to be able to talk to policymakers and politicians. "It is therefore essential that the new public health professional – the one who can talk to politicians, citizens and colleagues, summarises the newest evidence in one tweet, the one who can stimulate all areas of society to take public health into account and clearly say that public health is a European matter – stands up and continues the work of the whole public health community. And EUPHA is there to support the public health community anyway we can."

Policy development in Personalized Medicine – Open Seminar 15 March 2018

PRECeDI consortium, of which EUPHA is a member, organizes a one-day Open Seminar on Policy development in Personalized Medicine on 15 March 2018. The seminar is held at VU University, E-wing, Boelelaan 1105, Amsterdam, The Netherlands. The seminar will address promises of –omics in personalized medicine, achieved results, current challenges. It will look at the potential of public-private collaboration and strategies for integrating personalized medicine in health systems. Speakers include Martina Cornel (VUMC), Cornelia van Duijn (ErasmusMC), Stefania Boccia (UCSC), Ron Zimmern (PHG Foundation), Paolo Villari (Sapienza), Walter Ricciardi (ISS), Natasha Azzopardi Muscat (EUPHA).

Interested colleagues are free to attend. For the full programme, please see the [PRECeDI webpage](#).

Bringing public health, social care and urbanity back in – health governance beyond policy subsystems

On behalf of the EUPHA section on Public health practice and policy, we would like to announce and invite you to the European Health Policy Group (EHPG) Spring meeting, which will be co-hosted by EUPHA and co-organised by our EUPHA section on Public health practice and policy.

When? The lunch-to-lunch meeting will take place on **April 19 and 20, 2018**

Where? Rotterdam, The Netherlands.

Theme: 'Bringing public health, social care and urbanity back in – health governance beyond policy subsystems'

Registration costs: 100 euros

The EHPG is an informal group of scholars, senior policy officials and PhD students reviewing each others papers on a number of health system related topics twice a year. The group has been around for about 20 years now, meeting each Fall in London (hosted by King's College and LSHTM), and in Spring in one of the other European participating countries. It usually has around 30-50 active participants from Eastern and Western European countries. The programme consists of accepted paper reviews by allocated discussants, who present the paper on behalf of the author, address the quality of the paper, and discuss the policy and practice implications interactively with the audience (6). Each paper is allocated a full hour in-depth discussion.

You can find the draft programme with accepted papers [here](#). EUPHA has kindly made available a limited number of sponsored places at this meeting. Costs for travel and stay will be on your own expenses. So be quick and register for this meeting which will open very soon.

You may pre-announce your participation with Marleen Bekker, m.bekker@maastrichtuniversity.nl. We will soon inform you of the registration details and whether you are eligible for a sponsored place.

MERH Congress on Migration, Ethnicity, Race and Health: book your place now!

The full preliminary programme for the MERH Congress on Migration, Ethnicity, Race and Health 17-19 May in Edinburgh is now available at: <http://www.merhcongress.com>

The programme offers a range of exciting plenary lectures, workshops as well as oral and poster presentations from many parts of the world covering a variety of issues related to policies, research, practice and training within our general theme. You may find more information on the objectives and ambitions of the Congress in a recent letter by Professor Raj Bhopal published in the Lancet:

[Unity in the fields of migration, ethnicity, race and health.](#)

2. European Public Health Conference

11th European Public Health Conference: 'Winds of change: towards new ways of improving public health in Europe', Cankarjev Dom, Ljubljana, Slovenia, 28 November 1 December 2018

Abstracts are invited

Abstracts are invited for workshops, oral presentations, pitch presentations and e-posters. Prizes will be awarded for the best oral, poster and early career professional's presentation. Abstracts do not have to be confined to the conference theme but can cover any aspect of public health.

Do not miss the opportunity to be recognized for your hard work. Abstracts and workshop proposals can be submitted [here](#).

Abstract Mentor Programme

The Abstract Mentor Programme offers an opportunity for young and/or less experienced abstract submitters to receive feedback from experienced reviewers on their abstracts. See the [EPH Conference](#) website for more information.

Registration

Registration for the 11th EPH Conference opens 1 April 2018. You can benefit from early bird registration fees until 15 September. We are expecting over 1,500 delegates. Meet your colleagues at the largest public health event in Europe and register early to benefit from the reduced rates.

Please note that we succeeded in keeping the fees at the same level as last year. Early bird registration fees for EUPHA members are EUR 600. Non-members pay EUR 680, Students pay EUR 420 (all including VAT).

Pre-conferences, Lunch Symposiums, Exhibition

The EPH Conference offers interesting opportunities for pre-conferences and lunch symposiums. If you have plans for a lunch symposium, pre-conference or an exhibition stand at the conference, please contact office@ephconference.eu.

Pre-conferences can be booked online once the pre-conference programme is completed in May. They can be added to your earlier made registration at all times.

3. EUPHA Members update

Public Health Schweiz: upcoming meetings

On 15 March 2018, Public Health Schweiz will organise a seminar on allergies - when the air makes you sick.

On 26 April 2018, Public Health Schweiz will organise a seminar on the sweet seduction of sugar.

On 28 August 2018, they will organise a seminar on early childhood: research, practice and ethics.

The annual conference of Public Health Schweiz will be organised 7-8 November on Better Health FASTER.

Norwegian Public Health Association on advocacy

The Norwegian Public Health Association - NOPHA - has started a Facebook group to support NOPHA's role in public health politics. NOPHA had already sent recommendation to all political parties November 2016 on public health matters and the charter from WFPHA and is now working toward a white paper about public health in Norway.

<http://www.nopha.no/>

Netherlands Public Health Federation: Prevention should be rewarded

The president of the NPHF (Ms Jolande Sap) and the director (Thomas Plochg) are clear on the issue: preventing health problems is the best way forward and this requires a shift in the current health care system. The NPHF, together with partners, managed to include prevention as a topic on the agenda of the new government.

5. Call for proposals, job opportunities

Postdoctoral Researcher in Geriatric Epidemiology at the Aging Research Center of Karolinska Institutet

The Department of Neurobiology Care Sciences and Society comprises 11 divisions and has about 500 employees. The NVS-department is located at KI Campus-Huddinge. The Department is responsible for education at basic and advanced levels, research education and clinical and experimental research within the different areas represented by the divisions.

The position of postdoc is announced by the Aging Research Center (ARC), a center for interdisciplinary research on health in aging that is a collaboration between Karolinska Institutet and Stockholm University. ARC will be located at the Karolinska Institutet Campus Solna from May 2018 on. The research group includes senior researchers, postdocs, doctoral students, and guest researchers. Unique Swedish resources

6. Interesting news

Number of older people with four or more diseases will double by 2035, study warns

BMJ 2018; 360 doi: <https://doi.org/10.1136/bmj.k371> (Published 05 February 2018)

The number of older people with four or more chronic diseases will double within the next 20 years largely because of an increase in obesity and physical inactivity, a large study has found.¹ A third of these people will have dementia, depression, or cognitive impairment diagnosed.

The UK healthcare system, which generally remains centred on treating single diseases, needs to be radically restructured to cope with this rise in multimorbidity, said researchers from Newcastle University's Institute for Ageing.

Published in the British Geriatrics Society's journal *Age and Ageing*, 1.....

Dutch to start presumed consent for organ donation in 2020

BMJ 2018; 360 doi: <https://doi.org/10.1136/bmj.k768> (Published 16 February 2018)

The Netherlands will introduce presumed consent for organ donation in July 2020, after a private member's bill passed the Dutch Senate by just two votes, ending decades of debate.

The Dutch Society of Intensive Care (NVIC) was "delighted" with the Active Donor Registration Law, claiming that it would place less of a burden on next of kin. The Kidney Patients' Association described it as a "milestone" that would save lives.

Era of flexible work requires new universal services- Prof. Seán Ó Riain

The future of work is here – and it's defined by flexibility, autonomy and pressure, according to Prof. Seán Ó Riain from Maynooth University, Ireland, who has been studying how workplaces have changed since 1995. He says we need to rethink public services to help people balance work and family in this new era.

Your NEWDEALS project used interviews and Europe-wide surveys to analyse how work has changed over the past couple of decades. What did you find?

E-cigarettes: Harm reduction or 'gateway' to new smokers?

Date: January 22, 2018

Source: Texas AandM University

Summary:

Smoking is an issue that has been at the heart of public health concerns for decades, with many efforts to restrict tobacco sales, tax cigarettes and sometimes hard-hitting campaigns to get people to quit smoking. But if the tobacco control community has long agreed on the harms of smoking, the place of reducing, rather than eliminating, harm has been hotly contested.

Tracking progress towards universal coverage for women's, children's and adolescents' health: The 2017 Report (Countdown to 2030)

United Nations Children's Fund (UNICEF) and the World Health Organization (WHO)

Published online: February 2018

ISBN: 978-92-806-4921-5

Countdown to 2030 tracks coverage levels for health interventions proven to reduce maternal, newborn and child mortality.

It calls on governments and development partners to be accountable, identifies knowledge gaps, and proposes new actions to achieve universal coverage for women's, children's and adolescents' health.

This is the first *Countdown to 2030* report in the context of the 2030 agenda for sustainable development and the Every Woman Every Child Global Strategy for Women's, Children's and Adolescent's Health (2016–2030).

It synthesizes data on the current situation and trends in reproductive, maternal, newborn and child health and nutrition from a wide array of sources including the profiles on the 81 *Countdown* priority countries, which together account for 95% of maternal deaths and 90% of deaths among children under age 5.

A 400% surge in measles cases in Europe in 2017, compared to 2016

20 February 2018 – Measles has rebounded in the WHO European Region. The disease affected 21 315 people and caused 35 deaths in 2017, following a record low of 5273 cases in 2016. The surge in measles cases in 2017 included large outbreaks (100 or more cases) in 15 of the 53 countries in the Region. [News release](#)

World leaders join new drive to beat noncommunicable diseases

16 February 2018 – WHO is announcing today a new high-level commission, comprised of heads of state and ministers, leaders in health and development and entrepreneurs. The group will propose bold and innovative solutions to accelerate prevention and control of the leading killers on the planet – noncommunicable diseases (NCDs) like heart and lung disease, cancers, and diabetes.
